

SOUND LEARNING VOLUNTEER POSITION
EVENT VOLUNTEER

ORGANIZATION: Sound Learning is a dynamic community-based educational organization offering innovative and high quality basic skills (reading, writing, math, GED prep, High School Diploma program for adults & computer literacy skills) and ESOL (English for Speakers of Other Languages) programs to adult learners 16 years old and above in Mason and Thurston Counties. We work with trained community volunteers to provide 1:1, small group, and classroom-based instruction. We are committed to learner-centered education that addresses the realities of participants' lives and is based on a collaborative model.

POSITION DESCRIPTION: Throughout the year Sound Learning hosts or participate in various events that support our organization. Our annual event, Spring Spell-E-Bration, our Holiday Bash and the Annual Meeting require much volunteer assistance. In addition, we often have informational booths at other events, such as; The Bite of Mason and OysterFest. Our volunteers make our events a huge success! Event volunteers help to set-up and breakdown, greet and direct guests, help with silent and live auctions, contacting businesses and individuals about events and distributing flyers in the community.

COMMITMENT: Volunteers are asked to commit to helping for 2 – 3 hours before an event and during the event.

For more information or an application, please stop by our office, email director@soundlearning.co or call 360-426-9733.

Thank you for your interest in volunteering with Sound Learning.
